

## iSportz Club and Team Management System (CTMS)

### Club and Team Management System

iSportz Club and Team Management System (CTMS) is a cutting-edge SaaS product aimed at growing sports clubs & teams, driving greater engagement and streamlining management operations.

### Why use iSportz Club and Team Management System?

iSportz CTMS helps with communication, scheduling, registration, rosters, and game information. CTMS saves time via automated scheduling, roster building, and fan engagement.

Increased Efficiency	Structured Organization	Innovative Technology	Future-Ready Solution
Enables efficient management of clubs and member databases.	Standardize and supervise team activity with a precise outline of schedules.	Exploit technological capabilities for supporting growth and protect sensitive data against unauthorized access.	Drive ease of use and engagement through hassle-free membership fee collection.

The screenshot shows the iSportz user dashboard for Olivia Emma. The dashboard includes a navigation menu on the left with options like Dashboard, My Teams, My Schedules, My Orders, Messages, My Profile, Account Settings, and My wallet. The main content area displays a greeting, a list of action items (e.g., 'You haven't yet accepted general waiver'), and three summary cards for Registered Events (0), My Teams (0), and Placed Orders (0). Below these is a section for 'Upcoming Events' featuring a match between Midwest Speed and Extreme Elite National at Rhoads Stadium, Alabama, on 06/18/2022 at 02:00 pm, with a 'Register Now' button. The right sidebar shows a profile section for Olivia Emma Athlete with a 72% completion progress bar and a 'Complete Profile' button, and a 'Compliance's Update' section with a 'Click to add more Users' button.

## Key Features and Capabilities:

- **Convenient camp registrations:** open a new season registration or update team and player data.
- **Scheduling event and roster management:** let users quickly search the upcoming schedules and gather relevant roster information.
- **Payment management:** allow users to review the payment and make changes if required.
- **User-specific profiles:** merge data in one place and make it easily accessible for users to access data anytime according to the user account, age, and season.
- **Management dashboards:** authorize managers to view user registration data and gain insights into the team and clubs. The dynamic reporting tools make it easy to analyze data in any format.
- **Integrated registration and management tools:** allow users to make payments, renew club fees and dues, and process refunds all using one system.
